Summary: "'Intelligent thriller' is almost an oxymoron . . . Which may be why novels like Dan Fesperman's are so rare . . . Fesperman just can't help drawing on his experience as a journalist covering foreign conflicts. And that experience puts the meat on the intricate bone structure of his thriller plots. You come away from a Fesperman novel not only abuzz with the exhilaration of the chase, but also aware that you've absorbed something of the complexity of the world's conflicts . . . Fesperman's characters in *The Arms Maker of Berlin*, particularly Bauer, are smartly imagined and subtly drawn." -San Francisco Chronicle "A smoothly accelerating thriller . . . Fesperman is a skillful, unpretentious writer who deftly incorporates his extensive knowledge of the period." - Boston Globe "Well-crafted entertainment that also delivers complex truths about warfare and survival." -Kirkus Reviews "Fesperman convincingly evokes the fraying Reich in 1944 . . . Readers who like a bit of history with their thrills will be thoroughly satisfied." -Publishers Weekly "Fesperman writes well. His characters are believable, and the strong and credible plot will specially appeal to fans of World War II espionage fiction." -Library Journal "This one is definitely not your out-of-the-box spy caper, thus highly recommended . . . In the jaded world of the post-modern spy novel, there are no good guys or bad guys, no black or white-just a thousand shades of gray. This combination of anomie and espionage can get tiresome after awhile, but in Fesperman's newest novel, he spices things up." -Booklist (starred).
