# Engineering Systems with Intelligence

Filesize: 6.8 MB

Reviews

Very beneficial to any or all group of folks. I was able to comprehended everything using this composed e ebook. I am pleased to inform you that here is the finest publication i have study inside my individual daily life and might be he very best pdf for actually.
(Brielle Hilpert)

ENGINEERING SYSTEMS WITH INTELLIGENCE

To get **Engineering Systems with Intelligence** eBook, you should access the web link under and save the document or have accessibility to additional information that are highly relevant to ENGINEERING SYSTEMS WITH INTELLIGENCE ebook.

Book Condition: New. Publisher/Verlag: Springer Netherlands | Concepts, Tools and Applications | This book contains a selection of papers presented at the "European Robotics and Intelligent Systems Conference" (EURISCON '91) held in Corfu. Greece (June 23-28. 1991). It is devoted to the analysis. design and applications of technological systems with built-in intelligence achieved through appropriate blending of mathematical, symbolic. sensing. computer processing. and feedback control concepts. methods and software / hardware tools. System intelligence includes human-like capabilities such as learning. observation. perception. interpretation. reasoning. planning. decision making. and action. Integrated intelligent decision and control systems obey Saridis' prinCiple of Increasing Precision with Decreasing Intelligence (IPDI). and have a hierarchical structure with three basic levels. namely Organization. Coordination. and Execution Levels. As we proceed from the organization to the execution level. the precision about the jobs to be completed increases and accordingly the intelligence reqUired for these jobs decreases. As an example. it is mentioned here that in an intelligent robotic system the organization tasks can be realized using a neural net. the coordination tasks by a Petri net. and the execution tasks by local sensors and actuators. The field of intelligent systems is a new interdisciplinary field with continuously increasing interest and expansion. It is actually the outcome of the synergetic interaction and cooperation of classical fields such as system theory. control theory. artificial intelligence. operational research. information theory. electronics. communications. and others. | 1 High Autonomy Systems.- Model-Based Architecture for High Autonomy Systems.- 2 Knowledge Based Systems.- Real Time Knowledge Based System: The Next Step.- Expert System Shell Flexibility: BEST Case Study.- The PHOS Conceptual Language for Knowledge Representation.- A Meta Translator of a Logic Grammar that Handles Missing Constituents.- A Truly Declarative Prolog-like Language.- Predicate Logic and Inexact Reasoning.- Diagram Understanding Using Graphics Constraint Grammars.- Knowledge Management in...
