

Hornets: Incredible Insect Architects

By Sandra Markle

Lerner Classroom. Paperback / softback. Book Condition: new. BRAND NEW, Hornets: Incredible Insect Architects, Sandra Markle, Take a closer look at nature's amazing insect architect the hornet! Each year, a young female hornet queen selects just the right spot and designs a nest of six-sided cells. Every cell is made from a paper-like material she creates by mixing wood with her own saliva. Once she has a small structure, she lays an egg in each cell and raises her young. Soon the queen has a whole family of workers, which continue to build more cells and increase the size of the hive. These workers also hunt insects for food, care for the queen and her young, and protect the nest. In this exciting book, you can learn what makes hornets similar to and different from other insects. Close-up diagrams reveal extraordinary details about hornets' bodies, both inside and out. And you can perform an activity that helps you understand how a female hornet queen creates the paper-like material for her nest. Learn more about this exciting member of nature's fascinating Insect World!

Reviews

It is really an amazing pdf which I actually have possibly read. I really could comprehend almost everything using this published e pdf. It's been printed in an remarkably easy way and it is just soon after I finished reading through this book in which in fact changed me, modify the way in my opinion.

-- Jena Jacobi

This pdf is great. This really is for anyone who states there had not been a well worth studying. You may like just how the writer compose this pdf.
